Appendix C – Petition for Representation

Each year the Academic Senate will request updated data from the Administration for the purposes of determining discipline representation. Data provided by Administration may result in changes to discipline(s) representation and may require a Petition for Representation This Petition for Representation includes two types of requests: one requesting that a discipline no longer be combined with other disciplines but rather have its own representatives, and the second is a request to combine disciplines for purposes of representation. Please fill out this form for either request.

Discipline(s) making the request:

1. Does this petition fall within the academic year in which a Senator needs to be re-elected?

No

Yes

If not, please provide a brief justification as to why this petition is being submitted at this time.

2. Based on the data, is this a request to have a discipline previously combined with other disciplines separated out as a single discipline with its own representatives?

No

Yes

If not, please skip to question #3.

If yes, the Academic Senate strongly urges that the discipline faculty can ensure representation to the Academic Senate, CCI and IPD. Please provide

- the FTEF for this discipline and the actual number of full-time faculty employed from the data.
- signatures of full-time faculty from the discipline requesting to separate.

Signature/Date

Signature/Date

Note: If yes, you need not answer any other question.

3. Is this a request to combine disciplines for purposes of representation?

No

Yes – If making a request to combine disciplines for purposes of representation, please provide

- The FTEF for each discipline wishing to combine and the actual number of full-time faculty employed by each discipline
- Signatures of at least one full-time faculty member from each discipline wishing to combine.

<u>Discipline</u>	<u>FTEF/discipline</u>	<u># of full-time faculty/discipline</u>	<u>Full-time faculty signature/date</u>
-------------------	------------------------	------------------------------------------	-----------------------------------------

Note: If this request to combine disciplines affects other disciplines, please be sure to consult with the other affected disciplines prior to submitting this Petition for Representation form.

4. Special Circumstances:

When combining disciplines, there may need to be changes to ensure there is only one representative for each of the Academic Senate committees (See Article I – CCI, IPD, DEAC).

When separating disciplines, there may need to be changes to ensure that no Academic Area exceeds seven representatives (See Article I).

If this Petition for Representation affects the ability of a representative to CCI, IPD and/or DEAC to complete their term, please explain how the discipline(s) faculty filing this Petition have worked to resolve this.

Please obtain signatures from at least one full-time faculty member from each affected discipline and any duly elected representative who, because of this petition to combine disciplines, will need to vacate their seat.

Name of discipline	Faculty name/signature/date
--------------------	-----------------------------

Examples:

Petition Submissions: Sean represents Liberal Arts and Cultural Studies on the Academic Senate. History makes the minimum qualifications and wishes to separate out. History can petition at the end of Sean's term as Senator. Without History, Liberal and Cultural may need to combine with other disciplines. This too can be petitioned at the end of Sean's term as Senator.

Combining Disciplines: Juan is the Senator for Math, and Julian is the Senator for Computer Science. Julian's term as Senator is ending. Computer Science wishes to combine with Math. Juan is now the Senator for both Math and Computer Science until the end of Juan's term. However, if Math and Computer Science each have an elected representative on CCI and/or IPD, then there will need to be a determination which ONE representative will represent both Math and Computer Science on CCI and ONE representative on IPD. The suggestion is that since Computer Science wishes to join with Math, the Computer Science representatives to CCI and/or IPD would vacate their seats. The Math representatives would complete their terms and now represent both Math and Computer Science. In the next election cycle for these positions, both Math and Computer Science faculty can nominate themselves. This information will need to be explained on this Petition form with signatures of the faculty – especially those vacating their seats.

Academic Areas: Liberal Arts, Social and Behavioral Sciences as an academic area have a total of 3 eligible seats on Senate, CCI and IPD. History, Political Science, Economics and Sociology decide to separate out and each meet the minimum qualifications. This brings the total to 7 for this academic area—the maximum allowed. This could be permitted.

Academic Areas: Arts and Letters as an academic area have 6 eligible seats. ELL/ ESL and Sign Language wish to separate out—2 additional seats. This would not be permitted. There would have to be an agreement reached within the Arts and Letters Academic Area to decide how not to exceed the maximum (7) limit.

Appendix D - Committees/Work Group Plan

Committees/Work Groups Structures and Functionality

There are 3 main components or structures within the organizational framework of GWC: namely.

the Academic Senate the Administration the Union.

Each of these structures has jurisdiction over areas affecting our college (separate powers), but there are also areas of shared jurisdiction in which mutual agreements are sought. 10+1 and other statutes provide guidelines. The aim is to provide functionality and increase efficiency within the college's decision-making processes.

Each of these structures may choose to organize into various types of smaller groupings, and in some instances, there may be groups established in areas where jurisdiction is shared.

The concern addressed here is how to conceptualize these groups and to organize them within a transparent and efficient decision-making process.

GUIDELINES FOR DIALOGUE / COMMUNITY EXPECTATIONS

- **Be true to yourself.** We want to create an atmosphere for open, honest exchange.
- **Commit to learning from each other.** Listen to each other and acknowledge that we all come from diverse backgrounds, skills, interests, abilities, and values. We realize that it is these very differences that will increase our awareness and understanding through this process.
- **Acknowledge each other’s experiences.** We will not devalue people for their experiences, lack of experiences, or difference in interpretation of those experiences.
- **Trust that others are doing the best they can.** We will try not to ‘freeze people in time’ but leave space for everyone to learn and change through our interactions with one another.
- **Challenge the idea and not the person.** If we wish to challenge something that has been said, we will challenge the idea or the practice referred to, not the individual sharing this idea or practice.
- **Speak your discomfort.** If something is bothering you and you are open to sharing, please share it with the group. Often our emotional reactions to this process offer the most valuable learning opportunities.
- **Step Up, Step Back.** Be mindful of taking up much more space than others. On the same note, empower yourself to speak up when others are dominating the conversation.

HELPING TO PREPARE YOURSELF AND OTHERS FOR CREATING A CALLING-IN CULTURE

Establish Community Agreements

Examples are:

- No blaming, no shaming
- Confidentiality if stories are shared
- Courage to interrupt if something is going amiss or being left unsaid
- Voices, thoughts, ideas, experiences welcome
- Pay attention to what moves you; use oops and ouch

Set Expectations

Examples are:

- Listen and learn
- Be fully present: attentive to oneself and others
- Share what you can
- Not everything will be covered
- We are perfectly imperfect

Calling Out Culture	Calling In: Praxis of the Heart
<p>Call-out culture refers to the tendency among progressives, radicals, activists, and community organizers to name instances or patterns of oppressive behavior and language use by others. People can be called out for statements and actions that are sexist, racist, ableist, and the list goes on. Because callouts tend to be public, they can enable a particularly armchair and academic brand of activism: one in which the act of calling out is seen as an end in itself...</p>	<p>“Calling in as a practice of loving each other enough to allow each other to make mistakes; a practice of loving ourselves enough to know that what we’re trying to do here is a radical unlearning of everything we have been configured to believe is normal.” - Ngọc Loan Trần</p>
